

SwapConnect.org

Your volunteer donor resource

A free website dedicated to helping transplant recipients find caretakers, get the funding they need post-transplant, find willing living donors, educate the public about donating & more.

You can now access the site with both PCs and Mobile devices.

You can become a member and create your own page if you are:

- A care recipient on the waiting list in need of a kidney, or someone who had a transplant and wishes to help volunteer.
- A willing living donor.
- A caretaker. Experience is helpful, but not required for all cases.

New features will be added in the coming months.
